

APRIL 29, 2021
At 5:30-6:30 PM EST

Topic: *Advances in Transdermal Delivery Systems: Basics*

Speaker: Professor Ajay K. Banga

Chair in Dept of Pharmaceutical Sciences
College of Pharmacy, Mercer University, Atlanta, GA

BIO:
Dr. Ajay K. Banga is Professor and Chair in the Department of Pharmaceutical Sciences at the College of Pharmacy and Health Sciences, Mercer University, Atlanta, GA. He also holds an endowed chair in transdermal delivery systems. His research expertise is in non-traditional approaches for transdermal drug delivery, especially for water soluble drugs including small conventional molecules, cosmeceuticals, and macromolecules. Dr. Banga has a Ph.D. in pharmaceuticals from Rutgers University, NJ. He is currently a major advisor to 10 Ph.D. students and has graduated 15 students under his guidance. His laboratory is funded by several start up and leading pharmaceutical companies, and he has served as a consultant to over 15 pharmaceutical companies. Dr. Banga currently serves on the Editorial Board of 7 journals, Associate Editor for one journal, and has served as the Editor-in-Chief (2002-07) for a drug delivery journal. He has written two books in the areas of delivery of proteins and transdermal delivery. He has served on over 30 thesis/dissertation advisory committees and as a referee for over 28 journals. He is a fellow of the American Association of Pharmaceutical Sciences.
