

AAiPS and IPMMA Collaboration MOU

AAiPS achieves a new milestone this year as it establishes a collaboration with the Indian Pharma Machinery Manufacturers Association (IPMMA). Both associations have a common goal to promote science and technology.

An MOU was signed to foster sharing of information and promote growth and understanding between the two associations. The signing of this MOU will facilitate scientific exchange and provide opportunities for members of the associations to attend each other's annual and regional meetings in order to foster networking.

A link to access the IPMMA website will appear on the AAiPS website and likewise IPMMA will also provide a link to the AAiPS website on their platform.

We at AAiPS look forward to a long-term Association with IPMMA benefitting members of both organizations.

Mahendra Mehta
President IPMMA

Indian Pharma Machinery Manufacturers' Association (IPMMA) is a largest body of Indian Pharma Machinery Manufacturers spread across India. In last 2 decades IPMMA has strived to contribute to a large extent to our Pharma fraternity raising the bar with each milestone achieved.

AAiPS
American Association of Indian
Pharmaceutical Scientists

Rupa Doshi
President AAiPS

American Association of Indian Pharmaceutical Scientists (AAiPS) is a nearly 29 year old non-profit organization reflecting the dedicated service of the Indian pharmaceutical community in USA. Today AAiPS serves as a platform for all Indian Scientists to network through its regional and annual meetings and the two chapters in New Jersey and Washington DC.
